A FORGER'S SCHEME.

He Tried to Get \$65 From Two of the Banks.

A smooth looking stranger walked into Dr. W. M. Hill's office Friday and telling him he was getting up a physicians' directory requested him to fill out a blank and sign it. This the doctor did with the understanding that it would go to him nothing unless he concluded to buy the book. The doctor's hand is not as plain as print and after the stranger saw the initials were W. and M. Dr. Hill explained that they were, at the same time expressing surprise that the stranger should find it necessary to ask about letters as well written as he considered those in question to be. It turned out however that there was a method in his questioning.

Later in the day the stranger presented a check signed by W. R. Bringham & Co. of Clarksville, for \$65 and asked to have it cashed at the City Bank. He was told that he would have to be identified first by a responsible man known to the bank. He then went to the Bank of Hopkinsville with the same check and was told again that he would have to get the endorsement of some local party. He asked if Dr. Hill would do and went out he said to see Dr. Hill. Soon afterwards he returned with Dr. Hill's name forged on the check in a very clumsy fashion. The man was told that the signature was not genuine and claiming to be very indignant he went out to "bring Dr. Hill in person." That was the last seen of him. He did not come back and when the police were notified later the stranger had taken his departure.

He was a young man of medium size, with dark hair, eyes and mustache. He probably went North.

The Coming Trip to Old Point.

On account of the rush to the World's Fair last season the usual trip to Old Point was postponed until this year. The date has been set, however, for July 26th, and arrangements are being made for the accommodation of all who can take advantage of this most pleasant summer outing. The personally conducted excursions have grown in popularity each year, and it is almost useless to speak of the special features of the trip and the pains taken to make everything first class in every particular. Aboard from the time you start until you return, a beautiful panorama is offered your inspection, and the many places to be visited at such small cost enables you to probably all in all the time you can possibly spare. This is by far the most delightful trip offered the traveling public, and you should make your arrangements to go.

Cut His Throat.

Wilson drew his knife and cut Merriweather's throat, making a frightful gash two inches long, narrowly escaping the jugular. Dr. J. P. Payton was called to see the injured man and sewed up the wound. Merriweather has the reputation of being a very orderly negro, while Wilson is known as a rather tough character. No arrests have yet been made.

Escaped from an Officer.

Last Thursday Mr. C. A. Boyd, the Marshal of Crofton, arrested Dock Howard, col., who was stealing a ride on a freight train. Howard was a stranger in that locality and had in his possession about \$50 worth of clothing, etc. Marshal Boyd took charge of the package of merchandise and at about the same time the negro "took to his heels," and although Mr. Boyd chased him half a mile he finally made his escape to the woods and has not been heard of since.

All the parties are colored. An order has not been made in the case of Martha Randolph, col., convicted of malicious cutting and given one year, and the probabilities are that she will remain in jail several days longer, as she will have to be taken to Frankfort, no females being permitted at Edgelyville.
